

LEO INTERNATIONAL COIN

Decentralized Staking Coin

Introduction

LIC is a Decentralized Finance (DeFi) token contract on Polygon Blockchain, made for the community, and initially distributed among the community members. LIC is a limited supply token providing value to asset and is carefully crafted to increase in value over time. It strives to create a decentralized financial ecosystem by offering a complete range of DeFi based products and solutions. It is important to note that to enable complete decentralization within the ecosystem, the founding body at LIC holds 20% of tokens for their research & development, and marketing.

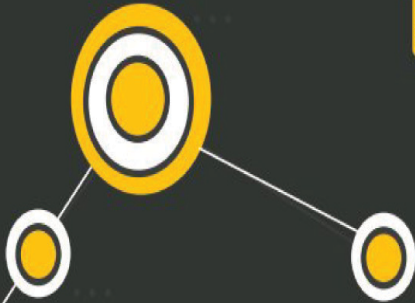

The LIC Decentralized Finance (Defi) Protocol offers a variety of products and solutions that includes:

LIC Tokens

Staking

Our Products

The LIC Defi Protocol offers a variety of products and solution that includes

LIC Tokens:

LIC Token is the native token of the LIC Financial ecosystem whereby it allows transaction processing, as a swapping token, and allow peer to peer exchange and transfer of value. The LIC Token will be Listed on Quickswap, where by the token has one pair LIC/USDC. Liquidity will be gradually increased to 20 million. Price of LIC token depends on LIC token holders, the amount of liquidity provided, and LIC tokens staked.

Staking: Staking allows its token holders to stake/store their holdings in a non-custodial wallet which is connected with the blockchain network. As a return, the staking users get periodic LIC tokens as reward.

Tokenomics

Max Supply	→ 50,000,000 LIC Tokens
Quickswap Liquidity	→ 20,000,000 LIC Tokens
Staking Reward	→ 20,000,000 LIC Tokens
Marketing	→ 5,000,000 LIC Tokens
Team & Development	→ 5,000,000 LIC Tokens

Staking :

A total of 20 million LIC tokens will be allocated for two pools for staking LIC, 10 million for each pool. Staked LIC will be locked for 5 years. Users staking in first Standard pool will be reward 12 percent per annum and their tokens will be locked for 5 years. Users in Standard pool can withdraw their reward at any time. Users staking in the second Fixed pool will be reward 100 percent in 5 years and their staked tokens and rewards will be locked for 5 years. Users in Fixed pool cannot withdraw their rewards or their staked tokens for five years. Rewards for both Standard and Fixed pools will be paid until the allotted 10 million LIC tokens for the respective pools are awarded. Users can withdraw staked LIC tokens and rewards pending in their staked account after 5 years in both pools.

THANK YOU
