# LEO INTERNATIONAL COIN

Decentralized Staking Coin

PROJECTS (2023 – 2030)

QR CODE

QR codes generally create a sort of pixel pattern with each part containing a piece of information. The customer just has to scan it and then transfer payment.

Benefits:

- On the spot payments
- Secured online payment
- Easy to set up
- Extremely reliable solution

APPLICATION PROGRAMMING INTERFACE (API)

Application Programming Interface, which is a software intermediary that allows two applications to talk to each other. When you use an application on your mobile phone, the application connects to the Internet and sends data to a server. The server then retrieves that data, interprets it, performs the necessary actions and sends it back to your phone. The application then interprets that data and presents you with the information you wanted in a readable way.

The Modern API

As any other piece of productized software, the modern API has its own software development lifecycle (SDLC) of designing, testing, building, managing, and versioning. Also, modern APIs are well documented for consumption and versioning.
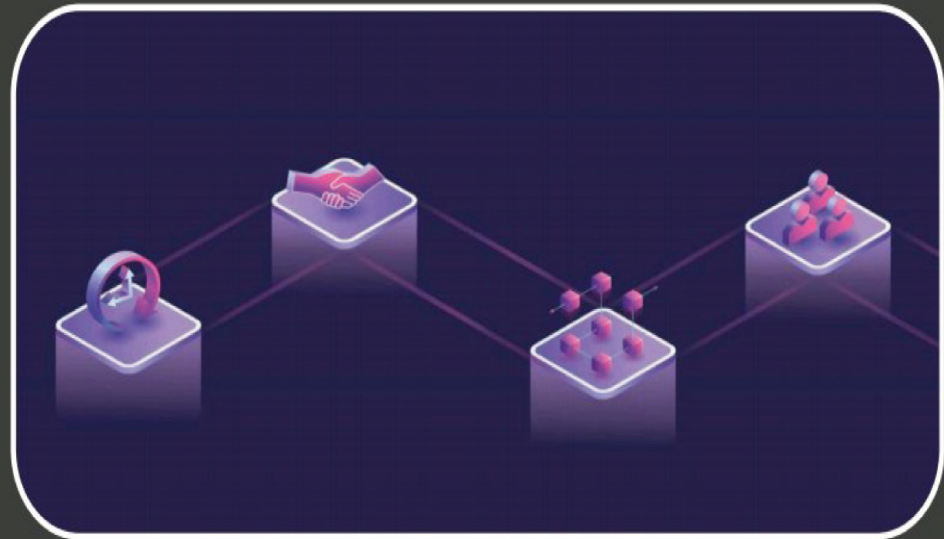

E-COMMERCE

Exchange of goods and services among businesses and between businesses and consumers using internet technologies. E-commerce helps firms to improve product quality, reduce costs, assist them to reach new. E-commerce is defined as the process of buying, selling, or exchanging products, services, or information via computer networks, including only buying and selling of goods and services but also servicing customers, collaborating with business Partners, conducting e-learning and conducting electronic transactions within an organization.

Merits :

Store and product listing creation
Cost reduction
Affordable advertising and marketing
Product and price comparison
Faster response to buyer/market demands
Several payment modes

Demerits:

Security.
Site crash.
No possibility of tried and tested product.
Late delivery.

OVER THE TOP(OTT PLATFORM)

India's Over the Top (OTT) Entertainment Industry to be **$15 billion industry by 2030**. The quality of content will always remain a significant driver of consumer growth. In recent years, we have witnessed a massive rise in original content being aired on OTT platforms.

ONLINE EDUCATION

MERITS

Reduced costs
convenience
flexibility
Time flexibility

Online learning is a form of distance learning that takes place over the internet. Online learning can include online courses, exams, gamified quizzes, and certification training.

DEMERITS

Diminished social interaction
Not suitable for every topic
Lack of practice-based learning

BLOCKCHAIN CITY

Blockchain technology allows city management to be distributed among all parties involved. The decentralized governance made possible by this approach could be the key to solving various sociodemographic problems that are on the rise. Multiple studies have predicted that the future of the planet will be fundamentally urban. Current trends indicate that people are relocating to cities.
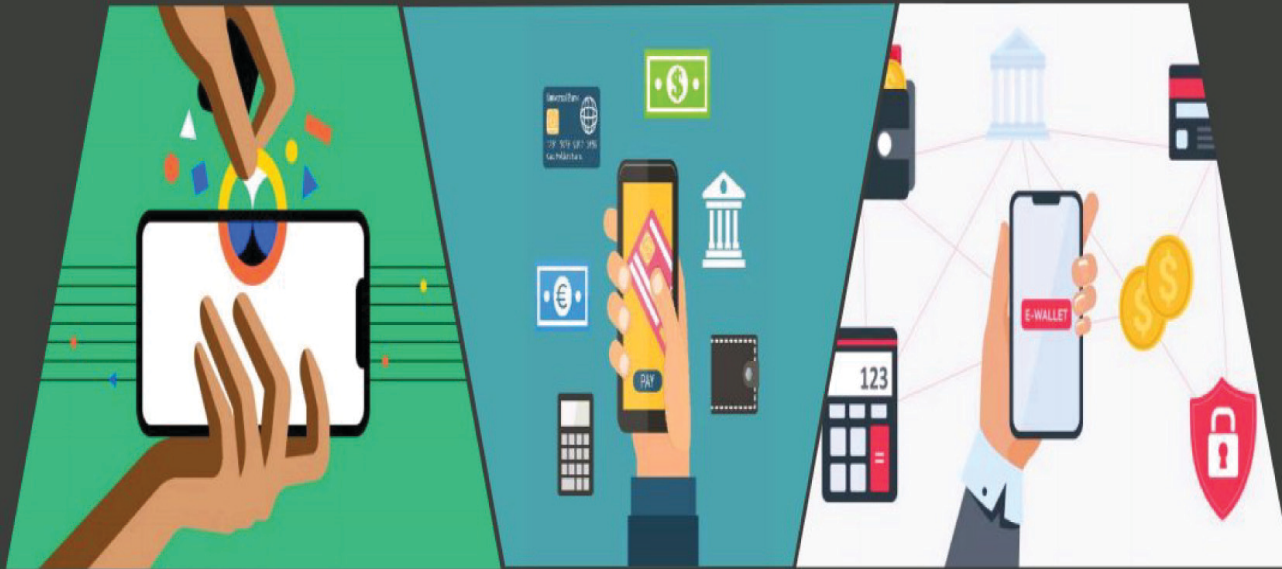

LIC OWN BLOCKCHAIN

LIC Own Block Chain is **a blockchain network built for running smart contract-based applications**. It runs in parallel with LIC's native Own Block Chain (OBC), which allows users to get the best of both worlds: the high transaction capacity of OBC and the smart contract functionality of LIC.
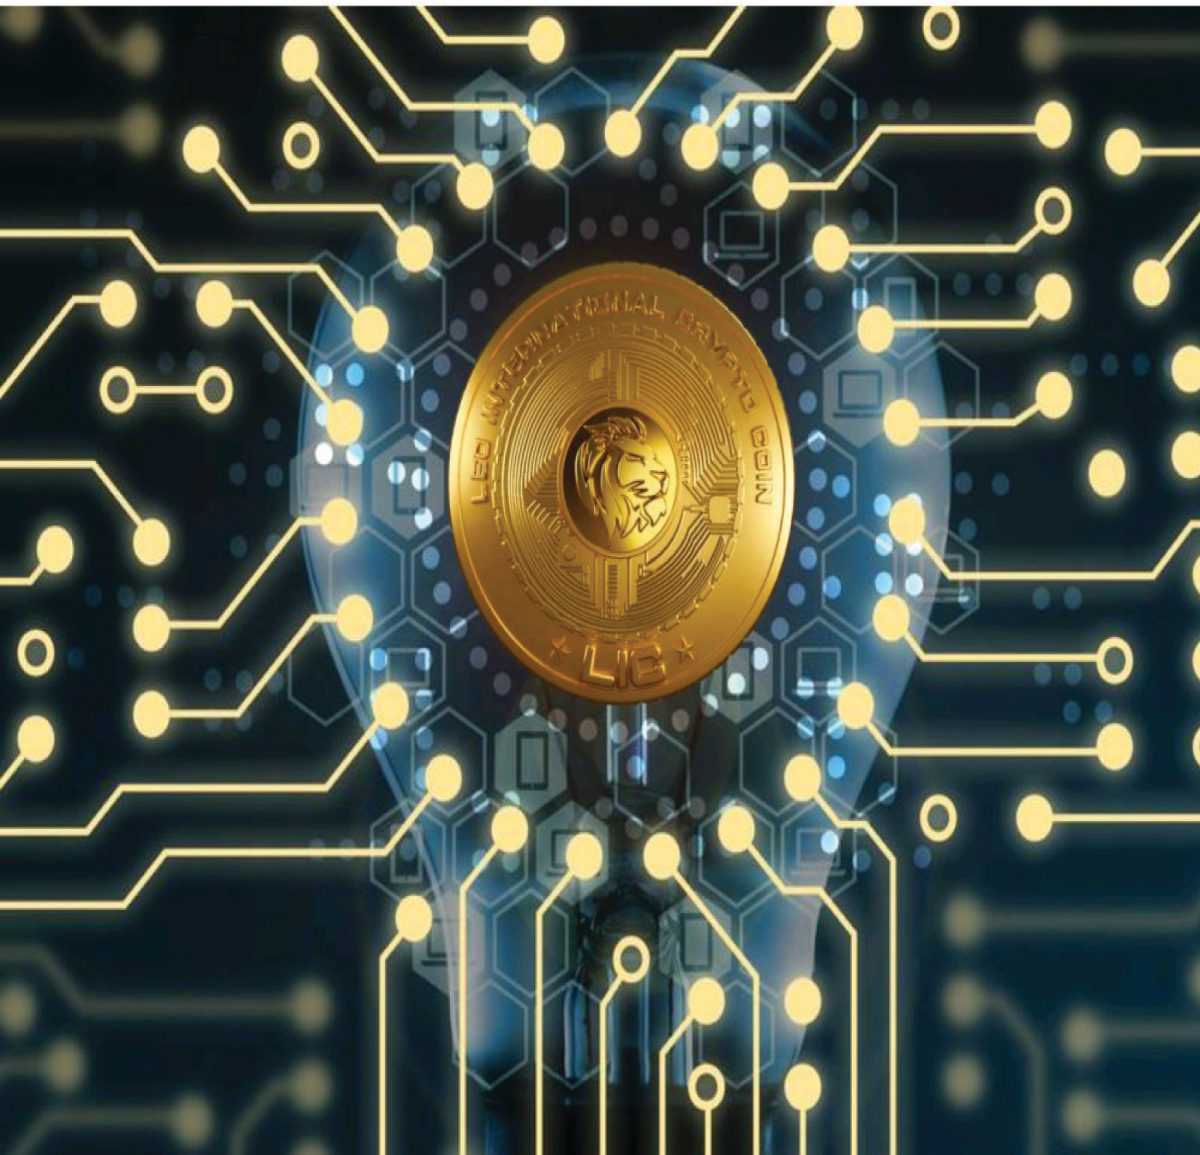

LIC Own Block Chain is focused on **making DeFi affordable by offering a higher gas block limit and faster block times.**

LIC WALLET

It's an app that allows you to manage your finances efficiently and conveniently. Additionally, now with its UPI features, you can easily transfer money to someone else's bank account. It has several stand out features, ranging from its CashBack and Reward Point offers, which allows you to maximise on your savings. So, if you're looking to simplify your financial management, why not use LIC WALLET and bring some convenience and ease to your life.
